

## **Curriculum Policy**

At SSNS, IPC School, our curriculum is built on the foundation of the National Curriculum and the International Primary Curriculum. From this starting point, we create ambitious, broad, and varied learning experiences for all learners, building on prior knowledge, practicing skills and ensuring deep understanding. We enrich our curriculum by fostering international mindedness and key learning elements represented by our 'Learning Animals,' (such as Adaptable Chameleon, Communicator Pigeon, Collaborator Ants, Empathetic Elephant Ethical Dolphin, Resilient Dog, Respectful Bee, Thinker Chimpanzee) and through constructive approach of 5Es: Engage, Explore, Explain, Elaborate, and Evaluate. These principles embody our mission and vision.

At SSNS IPC School, we recognize the curriculum as a powerful tool to cultivate a love for learning, an eagerness to explore, and the time to reflect and enjoy the educational journey. We believe in the value of controlled and safe risk-taking and provide opportunities for supported failure, understanding that learners benefit as much from their mistakes as from their initial successes.

We are committed to developing the whole child. Our learners are given opportunities to be creative, physically active, and academically challenged. We assess their progress continuously and at key points, providing meaningful and developmental feedback. The curriculum at SSNS is dynamic and evolves to meet the needs of our diverse learner population, the aspirations of our staff, and our international community. We constantly review and enhance our curriculum to ensure it is relevant and prepares learners for the future's unknown opportunities and challenges.
